BOOKKEEPING & ACCOUNTING PORTFOLIO PROJECTS

QuickBooks Online Full-Cycle Bookkeeping Project

2025 – Present

Tools: QuickBooks Online Sample Company

- Reviewed the QBO dashboard to analyze company income, expenses, bank balances, invoices, and outstanding bills.
- Categorized bank feed transactions using correct income, expense, asset, liability, and equity accounts.
- Matched bank transactions to existing invoices, payments, and bills to prevent duplicate records.
- Completed bank reconciliation confirming a \$0.00 difference against bank statement balances.
- Created customer invoices and recorded payments, applying each payment to the correct open invoice.
- Entered vendor bills and reviewed accounts payable balances to track company obligations.
- Generated A/R and A/P aging reports to identify outstanding customer and vendor balances.
- Prepared monthly summaries covering income, expenses, outstanding balances, and reconciliation status.
- Documented each task with screenshots, decision rules, analysis, and business impact notes.

Excel Bookkeeping – Delivery Driver Income & Expense Tracker

2025 – Present

Tools: Microsoft Excel | Platforms: Uber, Walmart Spark, Lyft, DoorDash

- Built Excel spreadsheets to track weekly and monthly income across multiple gig delivery platforms.
- Recorded business expenses including gas, mileage, car maintenance, phone, tolls, parking, and supplies.
- Used SUM, subtraction, and category formulas to calculate net earnings and monthly totals.
- Organized financial data by date, platform, income source, expense type, amount, and notes.
- Reviewed receipts, platform payment summaries, and bank transactions to maintain record accuracy.

- Produced clean monthly summaries to support budgeting, tax preparation, and bookkeeping review.
- Maintained strict accuracy and confidentiality when handling personal income and financial records.

Bank Reconciliation Project

2025 – Present

Tools: QuickBooks Online – Bank Register, Reconciliation Report

- Compared beginning and ending balances, cleared transactions, and statement dates for accuracy.
- Reviewed deposits, payments, expenses, and transfers to confirm alignment with the bank statement.
- Identified and resolved unmatched or missing transactions before finalizing reconciliation.
- Confirmed a \$0.00 reconciliation difference and prepared notes with analysis and final result.

Accounts Receivable Project

2025 – Present

Tools: QuickBooks Online – Invoices, Receive Payment, Customer Reports

- Created customer invoices with accurate name, date, service description, quantity, rate, and total.
- Recorded customer payments and applied each to the correct open invoice.
- Reviewed A/R aging reports to identify unpaid invoices and outstanding customer balances.

Accounts Payable Project

2025 – Present

Tools: QuickBooks Online – Bills, Expenses, Vendor Reports

- Entered vendor bills with correct vendor name, bill date, due date, category, and amount.
- Recorded vendor payments and confirmed bills were marked as paid in QuickBooks.
- Reviewed A/P reports to track unpaid obligations and support accurate monthly reporting.

WORK EXPERIENCE

Independent Contractor – Delivery Driver

Walmart Spark / Uber / DoorDash | 2023 – Present

- Managed daily delivery operations with strong attention to detail, time management, and accuracy.
- Maintained organized Excel records of income, mileage, and delivery-related expenses across platforms.
- Followed company procedures to protect customer information and complete tasks reliably.
- Built transferable skills in financial tracking, documentation, record accuracy, and customer service.

Amazon Warehouse Associate

Amazon | Baltimore, Maryland | 2020 – 2022

- Maintained accurate order and inventory records using warehouse scanning systems.
- Verified item counts and shipment information with strong attention to detail and accuracy.
- Handled high-volume operational tasks while meeting strict productivity and quality standards.
- Assisted with inventory tracking and discrepancy identification to support operational efficiency.
- Developed strong organizational, documentation, and data-handling skills applicable to bookkeeping and accounting support roles.

Production Associate / Packaging Associate

Maruchan | San Antonio, Texas | 2018 – 2020

- Monitored production machines to make sure they operated correctly during the packaging process.
- Checked products to ensure they were properly packed, labeled, and ready for shipment.
- Followed quality control procedures to reduce packaging errors and product waste.
- Identified machine or packaging issues and reported them to the appropriate team.
- Maintained a clean and organized work area while following safety and production standards.
- Worked in a fast-paced production environment requiring accuracy, consistency, and attention to detail.

EDUCATION

MBA / Master in Management | ESSEC Business School of Douala, Cameroon | June 2015
