EXPERIENCE

Freelance Bookkeeper Self-Employed 2024 – Present

- Performed full-cycle bookkeeping engagements using QuickBooks Online and Excel for small business and self-employed clients.

QuickBooks Online Full-Cycle Project

- Categorized bank feed transactions using correct income, expense, asset, liability, and equity accounts.
- Matched transactions to invoices, payments, and bills to prevent duplicate records.
- Completed bank reconciliation confirming a \$0.00 difference against bank statement balances.
- Created customer invoices, recorded payments, entered vendor bills, and reviewed A/P balances.
- Generated A/R and A/P aging reports; prepared monthly summaries of income, expenses, and outstanding balances.

Excel Income & Expense Tracker

- Built spreadsheets to track weekly and monthly income and expenses across multiple revenue streams.
- Used SUM and category formulas to calculate net earnings, monthly totals, and deductible expenses.
- Produced clean monthly summaries to support budgeting and tax preparation.

Logistics Technician Walmart 2023 – Present

- Managed daily multi-platform delivery operations with strong attention to detail, time management, and route accuracy.
- Maintained Excel records of earnings, mileage, and business expenses across platforms; applied bookkeeping principles to self-employment financial tracking.
- Followed strict data handling and confidentiality protocols when processing customer and order information.

Warehouse Operations Associate Amazon — Baltimore, Maryland 2020 – 2022

- Maintained accurate inventory and order records using warehouse scanning systems; verified item counts and shipment data.
- Developed organizational and data-handling skills directly applicable to bookkeeping and accounting support roles.

Production & Quality Control Associate Maruchan — San Antonio, Texas 2018 – 2020

- Monitored production processes, identified discrepancies, and maintained documentation in a high-volume environment.
